Item 18	Financial Information	21

Item 4 Advisory Business

- A. Condor Capital Wealth Management (the “Registrant”) is a New Jersey corporation formed on September 2, 1988. The Registrant became registered as an Investment Adviser Firm in November 1988. The Registrant is principally owned by Kenneth Schapiro, the Registrant’s President.

B.

INVESTMENT ADVISORY SERVICES

The Registrant provides discretionary and/or non-discretionary investment advisory services on a *fee-only* basis. The Registrant’s annual investment advisory fee is based upon a percentage (%) of the market value of the assets placed under the Registrant’s management. Before engaging the Registrant to provide investment advisory services, clients are required to enter into an *Investment Advisory Agreement* with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the fee that is due from the client.

Before Registrant provides investment advisory services, an investment adviser representative will ascertain each client’s investment objectives. Thereafter, the Registrant will allocate and/or recommend that the client allocate investment assets consistent with the designated investment objectives. Once allocated, the Registrant provides ongoing monitoring and review of account performance and asset allocation as compared to client investment objectives

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant may provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone separate fee basis.

Prior to engaging the Registrant to provide planning or consulting services, clients are generally required to enter into a *Financial Planning and Consulting Agreement* with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the portion of the fee that is due from the client prior to Registrant commencing services. If requested by the client, Registrant may recommend the services of other professionals for implementation purposes. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from the Registrant.

If the client engages any recommended unaffiliated professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. At all times, the engaged licensed professional(s) (i.e. attorney, accountant, insurance agent, etc.), and not the Registrant, shall be responsible for the quality and competency of the services provided.

It remains the client's responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant's previous recommendations and/or services.

PENSION CONSULTING

Registrant may be engaged to render consulting services to the sponsors of "participant-directed" retirement plans established by the sponsors pursuant to Section 404(c) of ERISA. Section 404(c) permits a Plan participant to exercise control over the assets contained in his/her individual retirement account.

To the extent that the plan sponsor engages the Registrant in an ERISA Section 3(21) capacity, the Registrant will assist with the selection and/or monitoring of investment options (generally open-end mutual funds and exchange traded funds) from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts.

If the plan sponsor chooses to engage the Registrant in an ERISA Section 3(38) capacity, Registrant may provide the same services as described above, but may also: create specific asset allocation models that Registrant manages on a discretionary basis, which plan participants may choose in managing their individual retirement account; and/or modify the investment options made available to plan participants on a discretionary basis.

MISCELLANEOUS

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services. As indicated above, to the extent requested by a client, Registrant may provide financial planning and related consulting services. Neither the Registrant nor its investment adviser representatives assist clients with the implementation of any financial plan, unless they have agreed to do so in writing. The Registrant does not monitor a client's financial plan, and it is the client's responsibility to revisit the financial plan with the Registrant, if desired.

Registrant does not serve as an attorney, accountant, or insurance agency, and no portion of its services should be construed as legal, accounting, or insurance brokerage services. Accordingly, Registrant does not prepare estate planning documents, tax returns or sell insurance products. To the extent requested by a client, Registrant may recommend the services of other professionals for certain non-investment implementation purpose (i.e. attorneys, accountants, insurance agents, etc.). Clients are reminded that they are under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation made by Registrant or its representatives.

If the client engages any unaffiliated recommended professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. At all times, the engaged licensed professional[s] (i.e. attorney, accountant, insurance agent, etc.), and not the Registrant, shall be responsible for the quality and competency of the services provided.

Retirement Rollovers-Potential for Conflict of Interest: A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and

may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). If Registrant recommends that a client roll over their retirement plan assets into an account to be managed by Registrant, such a recommendation creates a conflict of interest if Registrant will earn new (or increase its current) compensation as a result of the rollover. If Registrant provides a recommendation as to whether a client should engage in a rollover or not, Registrant is acting as a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. No client is under any obligation to roll over retirement plan assets to an account managed by Registrant.

Non-Discretionary Service Limitations. Clients that determine to engage Registrant on a non-discretionary investment advisory basis must be willing to accept that Registrant cannot effect any account transactions without obtaining prior consent to any such transaction(s) from the client. Therefore, in the event that Registrant would like to make a transaction for a client's account (including an individual holding or in the event of general market correction), and the client is unavailable, Registrant will be unable to effect the account transaction(s) (as it would for its discretionary clients) without first obtaining the client's consent.

Account Aggregation Tools. In conjunction with the services provided by third party service providers, the Registrant may also provide periodic comprehensive reporting services, which can incorporate all of the client's investment assets including those investment assets that are not part of the assets managed by the Registrant (the "Excluded Assets"). The Registrant's service relative to the Excluded Assets is limited to reporting services only, which does not include investment implementation.

Because the Registrant does not have trading authority for the Excluded Assets, to the extent applicable to the nature of the Excluded Assets (assets over which the client maintains trading authority vs. trading authority designated to another investment professional), the client (and/or the other investment professional), and not the Registrant, shall be exclusively responsible for directly implementing any recommendations relative to the Excluded Assets. Rather, the client and/or their other advisors that maintain trading authority, and not the Registrant, shall be exclusively responsible for the investment performance of the Excluded Assets.

Without limiting the above, the Registrant shall not be responsible for any implementation error (timing, trading, etc.) relative to the Excluded Assets. In the event the client desires that the Registrant provide investment management services (whereby the Registrant would have trading authority) with respect to the Excluded Assets, the client may engage the Registrant to do so pursuant to the terms and conditions of the *Investment Advisory Agreement* between the Registrant and the client.

Use of Mutual and Exchange Traded Funds: Most mutual funds and exchange traded funds are available directly to the public. Therefore, a prospective client can obtain many of the funds that may be utilized by Registrant independent of engaging Registrant as an investment advisor. However, if a prospective client determines to do so, he/she will not receive the Registrant's initial and ongoing investment advisory services.

In addition to Registrant's investment advisory fee described below, and transaction and/or custodial fees discussed below, clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g. management fees and other fund expenses).

Private Investment Funds. Registrant may recommend that certain qualified clients consider an investment in unaffiliated private investment funds. Registrant's role relative to the private investment funds shall be limited to its initial and ongoing due diligence and investment monitoring services. Registrant's clients are under absolutely no obligation to consider or make an investment in a private investment fund(s).

Risks: Private investment funds generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints and lack of transparency, a complete discussion of which is set forth in each fund's offering documents, which will be provided to each client for review and consideration. Unlike liquid investments that a client may own, private investment funds do not provide daily liquidity or pricing. Each prospective client investor will be required to complete a Subscription Agreement, pursuant to which the client shall establish that he/she is qualified for investment in the fund, and acknowledges and accepts the various risk factors that are associated with such an investment.

Valuation: If Registrant bills an investment advisory fee based upon the value of private investment funds or otherwise references private investment funds owned by the client on any supplemental account reports prepared by Registrant, the value for all private investment funds owned by the client will reflect the most recent valuation provided by the fund sponsor. The current value of any private investment fund could be significantly more or less than the original purchase price or the price reflected in any supplemental account report.

Socially Responsible Investing Limitations. Socially Responsible Investing involves the incorporation of Environmental, Social and Governance considerations into the investment due diligence process ("ESG"). There are potential limitations associated with allocating a portion of an investment portfolio in ESG securities (i.e., securities that have a mandate to avoid, when possible, investments in such products as alcohol, tobacco, firearms, oil drilling, gambling, etc.). The number of these securities may be limited when compared to those that do not maintain such a mandate. ESG securities could underperform broad market indices. Investors must accept these limitations, including potential for underperformance. Correspondingly, the number of ESG mutual funds and exchange traded funds are few when compared to those that do not maintain such a mandate. As with any type of investment (including any investment and/or investment strategies recommended and/or undertaken by Registrant), there can be no assurance that investment in ESG securities or funds will be profitable, or prove successful. The Registrant does not maintain or advocate an ESG investment strategy, but will seek to employ ESG if directed by a client to do so.

Cryptocurrency. For clients who want exposure to cryptocurrencies, including Bitcoin, Registrant, will advise the client to consider a potential investment in corresponding exchange traded securities or private funds that provide cryptocurrency exposure. Crypto is a digital currency that can be used to buy goods and services, but uses an online ledger with strong cryptography (i.e., a method of protecting information and communications

through the use of codes) to secure online transactions. Unlike conventional currencies issued by a monetary authority, cryptocurrencies are generally not controlled or regulated and their price is determined by the supply and demand of their market. Because cryptocurrency is currently considered to be a speculative investment, Registrant will limit the amount of exposure in client accounts. Client may direct the Registrant not to purchase Cryptocurrency for their account.

Independent Managers. Registrant may recommend that the client allocate a portion of a client's investment assets among unaffiliated independent investment managers ("Independent Manager(s)") in accordance with the client's designated investment objective(s). In such situations, the Independent Manager(s) will have day-to-day responsibility for the active discretionary management of the allocated assets. Registrant will continue to render investment supervisory services to the client relative to the ongoing monitoring and review of account performance, asset allocation, and client investment objectives. The Registrant generally considers the following factors when recommending Independent Manager(s): the client's designated investment objective(s), management style, performance, reputation, financial strength, reporting, pricing, and research. The management fees, which may include performance based fees, are charged by the designated Independent Manager(s) are exclusive of, and in addition to, Registrant's ongoing investment advisory fee, subject to the terms and conditions of a separate agreement between the client and the Independent Manager(s). Registrant's advisory fee is set forth in the fee schedule at Item 5 below.

Cash Positions. Registrant continues to treat cash as an asset class. As such, unless determined to the contrary by Registrant, all cash positions (money markets, etc.) shall continue to be included as part of assets under management for purposes of calculating Registrant's advisory fee. At any specific point in time, depending upon perceived or anticipated market conditions/events (there being no guarantee that such anticipated market conditions/events will occur), Registrant may maintain cash positions for defensive purposes. In addition, while assets are maintained in cash, such amounts could miss market advances. Depending upon current yields, at any point in time, Registrant's advisory fee could exceed the interest paid by the client's money market fund.

Cash Sweep Accounts. Account custodians generally require that cash proceeds from account transactions or cash deposits be swept into and/or initially maintained in the custodian's sweep account. The yield on the sweep account is generally lower than those available in money market accounts. To help mitigate this issue, Registrant generally purchases a higher yielding money market fund available on the custodian's platform with cash proceeds or deposits, unless Registrant reasonably anticipates that it will utilize the cash proceeds during the subsequent 30-day period to purchase additional investments for the client's account. Exceptions and/or modifications can and will occur with respect to all or a portion of the cash balances for various reasons, including, but not limited to, the amount of dispersion between the sweep account and a money market fund, an indication from the client of an imminent need for such cash, or the client has a demonstrated history of writing checks from the account.

Portfolio Activity. Registrant has a fiduciary duty to provide services consistent with the client's best interest. As part of its investment advisory services, Registrant will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, fund manager tenure, style drift, account additions/withdrawals, and/or a change in the client's

investment objective. Based upon these factors, there may be extended periods of time when Registrant determines that changes to a client's portfolio are neither necessary nor prudent. Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains their responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant's previous recommendations and/or services.

Cybersecurity Risk. The information technology systems and networks that Registrant and its third-party service providers use to provide services to Registrant's clients employ various controls, which are designed to prevent cybersecurity incidents stemming from intentional or unintentional actions that could cause significant interruptions in Registrant's operations and result in the unauthorized acquisition or use of clients' confidential or non-public personal information. Clients and Registrant are nonetheless subject to the risk of cybersecurity incidents that could ultimately cause them to incur losses, including for example: financial losses, cost and reputational damage to respond to regulatory obligations, other costs associated with corrective measures, and loss from damage or interruption to systems. Although Registrant has established its systems to reduce the risk of cybersecurity incidents from coming to fruition, there is no guarantee that these efforts will always be successful, especially considering that Registrant does not directly control the cybersecurity measures and policies employed by third-party service providers. Clients could incur similar adverse consequences resulting from cybersecurity incidents that more directly affect issuers of securities in which those clients invest, broker-dealers, qualified custodians, governmental and other regulatory authorities, exchange and other financial market operators, or other financial institutions.

Disclosure Statement. A copy of the Registrant's written Brochure and Client Relationship Summary, as set forth on Part 2A of Form ADV and Form CRS respectively, shall be provided to each client prior to, or contemporaneously with, the execution of the *Investment Advisory Agreement* or *Financial Planning Agreement*.

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Prior to providing investment advisory services, an investment adviser representative will ascertain each client's investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on the Registrant's services.
- D. The Registrant does not participate in a wrap fee program.
- E. As of December 31, 2022, the Registrant had \$1,164,434,558 in assets under management on a discretionary basis and \$265,097,090 in assets under management on a non-discretionary basis.

Item 5 Fees and Compensation

A.

INVESTMENT ADVISORY SERVICES

The Registrant's annual investment advisory fee shall be based upon a percentage (%) of the market value and type of assets placed under the Registrant's management as follows:

<u>Market Value of Portfolio</u>	<u>% of Assets</u>
\$0 to \$1,000,000	1.00%
Over \$1,000,000	0.75%

The Registrant generally requires an annual minimum asset level of \$500,000 for investment advisory services. The Registrant, in its sole discretion, may reduce its investment management fee and/or reduce or waive its minimum asset requirement based upon certain criteria (i.e. anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, etc.). The Registrant may also, at its sole discretion, offer limited concierge services to its advisory clients, for an additional hourly fee ranging from \$100 to \$250 per hour.

The Registrant's investment advisory fee is negotiable at its discretion, depending upon objective and subjective factors including but not limited to: the amount of assets to be managed; portfolio composition; the scope and complexity of the engagement; the anticipated number of meetings and servicing needs; related accounts; future earning capacity; anticipated future additional assets; the professional(s) rendering the service(s); prior relationships with the Registrant and/or its representatives, and negotiations with the client. As a result of these factors, similarly situated clients could pay different fees, the services to be provided by the Registrant to any particular client could be available from other advisers at lower fees, and certain clients may have fees different than those specifically set forth above.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant's planning and consulting fees are negotiable, but generally range from \$500 to \$3,000 on a fixed fee basis, and from \$200 to \$250 on an hourly rate basis, depending upon the level and scope of the service(s) required and the professional(s) rendering the service(s).

PENSION CONSULTING

The Registrant's pension consulting fees are negotiable, but generally range from 0.25% to 0.50% of the market value of the assets in the Plan.

- B. Clients may elect to have the Registrant's advisory fees deducted from their custodial account. Both Registrant's *Investment Advisory Agreement* and the custodial/clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's investment advisory fee and to directly remit that management fee to the Registrant in compliance with regulatory procedures. In the limited event that the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice.

The Registrant shall deduct fees and/or bill clients quarterly in advance, based upon the value of the assets on the last business day of the previous quarter. The Registrant includes accrued interest and dividends in the valuation of client assets.

- C. As discussed below, unless the client directs otherwise or an individual client's circumstances require, the Registrant shall generally recommend that Charles Schwab and Co., Inc. ("*Schwab*") or Fidelity Investments, Inc. ("*Fidelity*") serve as the broker-dealer/custodian for client investment management assets.

Broker-dealers such as *Schwab and Fidelity* charge brokerage commissions, transaction, and/or other type fees for effecting certain types of securities transactions (i.e., including transaction fees for certain mutual funds, and mark-ups and mark-downs charged for fixed income transactions, etc.). The types of securities for which transaction fees, commissions, and/or other type fees (as well as the amount of those fees) shall differ depending upon the broker-dealer/custodian. While certain custodians, including *Schwab and Fidelity*, generally (with the potential exception for large orders) do not currently charge fees on individual equity transactions (including ETFs), others do.

There can be no assurance that *Schwab or Fidelity* will not change their transaction fee pricing in the future.

Schwab or Fidelity may also assess fees to clients who elect to receive trade confirmations and account statements by regular mail rather than electronically.

Clients will incur, in addition to Registrant's investment management fee, brokerage commissions and/or transaction fees, and, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g. management fees and other fund expenses).

Tradeaway/Prime Broker Fees. Relative to its discretionary investment management services, when beneficial to the client, individual equity and/or fixed income transactions may be effected through broker-dealers other than the account custodian, in which event, the client generally will incur both the fee (commission, mark-up/mark-down) charged by the executing broker-dealer and a separate "tradeaway" and/or prime broker fee charged by the account custodian (i.e. *Schwab or Fidelity*).

- D. The *Investment Advisory Agreement* between the Registrant and the client will continue in effect until terminated by either party by written notice in accordance with the terms of the *Investment Advisory Agreement*. Upon termination, the Registrant shall refund the pro-rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing quarter.
- E. Neither the Registrant, nor its representatives accept compensation from the sale of securities or other investment products.

Item 6 Performance-Based Fees and Side-by-Side Management

The Registrant will not enter into an advisory agreement with a performance-based fee component. However, certain independent managers recommended by the Registrant may require a participating client to enter a separate performance-based fee arrangement.

Item 7 Types of Clients

The Registrant's clients shall generally include individuals, business entities, trusts, pension and profit sharing plans, estates and charitable organizations.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

A. The Registrant may utilize the following methods of security analysis:

- Charting - (analysis performed using patterns to identify current trends and trend reversals to forecast the direction of prices)
- Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
- Technical - (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)
- Cyclical - (analysis performed on historical relationships between price and market trends, to forecast the direction of prices)

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year)
- Short Term Purchases (securities sold within a year)
- Trading (securities sold within thirty (30) days)

Investment Risk. Investing in securities involves risk of loss that clients should be prepared to bear. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s).

Investors generally face the following types of investment risks:

- Interest-rate Risk: Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- Market Risk: The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk may be caused by external factors independent of the fund's specific investments as well as due to the fund's specific investments. Additionally, each security's price will fluctuate based on market movement and emotion, which may, or may not be due to the security's operations or changes in its true value. For example, political, economic and social conditions may trigger market events which are temporarily negative, or temporarily positive.
- Inflation Risk: When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- Reinvestment Risk: This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.

- **Liquidity Risk**: Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk**: Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

B. The Registrant's methods of analysis and investment strategies do not present any significant or unusual risks. However, every method of analysis has its own inherent risks. To perform an accurate market analysis the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information; therefore, unbeknownst to the Registrant, certain analyses may be compiled with outdated market information, severely limiting the value of the Registrant's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies - Long Term Purchases, Short Term Purchases, and Trading - are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy. Trading, an investment strategy that requires the purchase and sale of securities within a thirty (30) day investment time period involves a very short investment time period but will incur higher transaction costs when compared to a short term investment strategy and substantially higher transaction costs than a longer term investment strategy.

C. Currently, the Registrant primarily allocates client investment assets among various individual equity (stocks), debt (bonds) and fixed income securities, mutual funds and/or exchange traded funds ("ETFs) and exchange traded notes.

Borrowing Against Assets/Risks. A client who has a need to borrow money could determine to do so by using:

- **Margin**-The account custodian or broker-dealer lends money to the client. The custodian charges the client interest for the right to borrow money, and uses the assets in the client's brokerage account as collateral; and,
- **Pledged Assets Loan**- In consideration for a lender (i.e., a bank, etc.) to make a loan to the client, the client pledges investment assets held at the account custodian as collateral.

These above-described collateralized loans are generally utilized because they typically provide more favorable interest rates than standard commercial loans. These types of collateralized loans can assist with a pending home purchase, permit the retirement of more expensive debt, or enable borrowing in lieu of liquidating existing account positions and

incurring capital gains taxes. However, such loans are not without potential material risk to the client's investment assets. The lender (i.e. custodian, bank, etc.) will have recourse against the client's investment assets in the event of loan default or if the assets fall below a certain level. For this reason, Registrant does not recommend such borrowing unless it is for specific short-term purposes (i.e. a bridge loan to purchase a new residence). Registrant does not recommend such borrowing for investment purposes (i.e. to invest borrowed funds in the market). Regardless, if the client was to determine to utilize margin or a pledged assets loan, the following economic benefits would inure to Registrant:

- by taking the loan rather than liquidating assets in the client's account, Registrant continues to earn a fee on such Account assets; and,
- if the client invests any portion of the loan proceeds in an account to be managed by Registrant, Registrant will receive an advisory fee on the invested amount; and,
- if Registrant's advisory fee is based upon the higher margined account value, Registrant will earn a correspondingly higher advisory fee. This could provide Registrant with a disincentive to encourage the client to discontinue the use of margin.

The Client must accept the above risks and potential corresponding consequences associated with the use of margin or a pledged assets loan.

The Registrant may also allocate investment management assets of its client accounts, on a discretionary basis, among one or more of its asset allocation programs (i.e. Aggressive, Moderately Aggressive, Moderate, and Conservative) as designated on the Investment Advisory Agreement. Registrant's asset allocation strategies have been designed to comply with the requirements of Rule 3a-4 of the Investment Company Act of 1940. Rule 3a-4 provides similarly managed investment programs, such as Registrant's asset allocation programs, with a non-exclusive safe harbor from the definition of an investment company. In accordance with Rule 3a-4, the following disclosure is applicable to Registrant's management of client assets:

1. Initial Interview – at the opening of the account, the Registrant, through its designated representatives, shall obtain from the client information sufficient to determine the client's financial situation and investment objectives;
2. Individual Treatment - the account is managed on the basis of the client's financial situation and investment objectives;
3. Quarterly Notice – at least quarterly the Registrant shall notify the client to advise the Registrant whether the client's financial situation or investment objectives have changed, or if the client wants to impose and/or modify any reasonable restrictions on the management of the account;
4. Annual Contact – at least annually, the Registrant shall contact the client to determine whether the client's financial situation or investment objectives have changed, or if the client wants to impose and/or modify any reasonable restrictions on the management of the account;
5. Consultation Available – the Registrant shall be reasonably available to consult with the client relative to the status of the account;
6. Quarterly Report – the client shall be provided with a quarterly report for the account for the preceding period;
7. Ability to Impose Restrictions – the client shall have the ability to impose reasonable restrictions on the management of the account, including the ability to instruct the Registrant not to purchase certain securities;

8. No Pooling – the client’s beneficial interest in a security does not represent an undivided interest in all the securities held by the custodian, but rather represents a direct and beneficial interest in the securities which comprise the account;
9. Separate Account - a separate account is maintained for the client with the Custodian;
10. Ownership – each client retains indicia of ownership of the account (e.g. right to withdraw securities or cash, exercise or delegate proxy voting, and receive transaction confirmations).

The Registrant believes that its annual investment management fee is reasonable in relation to: (1) the advisory services provided under the *Investment Advisory Agreement*; and (2) the fees charged by other investment advisers offering similar services/programs. However, Registrant’s annual investment advisory fee may be higher than that charged by other investment advisers offering similar services/programs. In addition to Registrant’s annual investment management fee, the client will also incur charges imposed directly at the mutual and exchange traded fund level (e.g., management fees and other fund expenses).

Registrant’s investment programs may involve above-average portfolio turnover which could negatively impact upon the net after-tax gain experienced by an individual client in a taxable account.

As discussed more fully in Item 10 below, the Registrant has previously recommended, and may in the future recommend, private equity investments. Private investments generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints and lack of transparency, a complete discussion of which is set forth in the issuer’s private placement memorandum, which will be provided to each client for review and consideration. Unlike liquid investments that a client may maintain, private investments do not provide daily liquidity or pricing. Each prospective client investor will be required to complete separate subscription documents, pursuant to which the client shall establish that he/she is qualified for investment in private placements, and acknowledges and accepts the various risk factors that are associated with such investments.

Item 9 Disciplinary Information

The Registrant has not been the subject of any disciplinary actions.

Item 10 Other Financial Industry Activities and Affiliations

- A. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.

- C. The Registrant has no other relationship or arrangement with a related person that is material to its advisory business.
- D. The Registrant does not receive, directly or indirectly, compensation from investment advisors that it recommends or selects for its clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.
- C. The Registrant and/or representatives of the Registrant *may* buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. Practices such as "scalping" (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, "front-running" (i.e., personal trades executed prior to those of the Registrant's clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant's "Access Persons". The Registrant's securities transaction policy requires that an Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Additionally, each Access Person must provide the Chief Compliance Officer or his/her designee with a written report of the Access Person's current securities holdings at least once each twelve (12) month period thereafter on a date the Registrant selects; provided, however that at any time that the Registrant has only one Access Person, he or she shall not be required to submit any securities report described above.

- D. The Registrant and/or representatives of the Registrant *may* buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a

position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. As indicated above in Item 11 C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant's Access Persons.

Item 12 Brokerage Practices

- A. In the event that the client requests that the Registrant recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct the Registrant to use a specific broker-dealer/custodian), Registrant generally recommends that investment management accounts be maintained at *Schwab or Fidelity*. Prior to engaging Registrant to provide investment management services, the client will be required to enter into a formal *Investment Advisory Agreement* with Registrant setting forth the terms and conditions under which Registrant shall manage the client's assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that the Registrant considers in recommending *Schwab or Fidelity* (or any other broker-dealer/custodian to clients) include historical relationship with the Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant's clients shall comply with the Registrant's duty to seek best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where the Registrant determines, in good faith, that the commission/transaction fee is reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Registrant's investment management fee. The Registrant's best execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

1. Non-Soft Dollar Research and Benefits: Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, Registrant receives from Schwab (or another broker-dealer/custodian, investment manager, platform or fund sponsor, or vendor) without cost (and/or at a discount) support services and/or products, certain of which assist Registrant to better monitor and service client accounts maintained at such institutions. Included within the support services that may be obtained by Registrant can be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support-including client events, computer hardware

and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations.

Certain of the above support services and/or products assist Registrant in managing and administering client accounts. Others do not directly provide such assistance, but rather assist Registrant to manage and further develop its business enterprise.

There is no corresponding commitment made by Registrant to Schwab, or any other any entity, to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as result of the above arrangement.

Schwab Advisor Services

Schwab Advisor Services (formerly called *Schwab* Institutional) is *Schwab*'s business serving independent investment advisory firms like the Registrant. *Schwab* provides Registrant and its clients with access to its institutional brokerage –trading, custody, reporting and related services – many of which are not typically available to *Schwab* retail customers. *Schwab* also makes available various support services. Some of those services help Registrant manage or administer its clients' accounts while others help Registrant manage and grow its business. *Schwab* may also provide monetary assistance to Registrant to defray certain costs related be towards certain technology, compliance, legal, business consulting and other related expenses. *Schwab*'s support services are generally available on an unsolicited basis and at no charge to Registrant. A more detailed description of *Schwab*'s support services follows:

Services that Benefit the Client

Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through *Schwab* include some to which Registrant might not otherwise have access or that would require a significantly higher minimum initial investment by its clients. *Schwab*'s services described in this paragraph generally benefit the client and the client's account.

Services that May Not Directly Benefit the Client

Schwab also makes available to Registrant other products and services that benefit the Registrant but may not directly benefit the client or the client's account. These products and services assist Registrant in managing and administering its clients' accounts. They include investment research, both *Schwab*'s own and that of third parties. Registrant may use this research to service all or some substantial number of its clients' accounts, including accounts not maintained at *Schwab*. In addition to investment research, *Schwab* also makes available software and other technology that:

- provide access to client account data (such as duplicate trade confirmations and account statements);
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
- provide pricing and other market data;
- facilitate payment of Registrant's fees from its clients' accounts; and
- assist with back-office functions, recordkeeping and client reporting.

Services that Generally Benefit Only Registrant

Schwab also offers other services intended to help Registrant manage and further develop its business enterprise. These services include:

- educational conferences and events;
- charitable donations from *Schwab* to third parties that Registrant seeks to support, such as a one-time donation made with respect to a charity event sponsored by Registrant for the benefit of the Children's Development Center at Hunterdon Medical Center, the Hunterdon YMCA and the National Eating Disorders Association;
- technology, compliance, legal, and business consulting;
- publications and conferences on practice management and business succession; and
- access to employee benefits providers, human capital consultants and insurance providers.

Schwab may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to Registrant. *Schwab* may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. *Schwab* may also provide Registrant with other benefits such as occasional business entertainment of its personnel.

Registrant's Interests in *Schwab's* Services

The availability of these services from *Schwab* benefits Registrant because it does not have to produce or purchase them. However, Registrant does not believe the receipt of *Schwab's* Advisor Services as described presents a conflict of interest, because Registrant has not agreed to provide any consideration to *Schwab* (such as an agreement to maintain a specific asset level or execute a specific number of transactions) in exchange for receipt of *Schwab's* Advisor Services.

2. The Registrant does not receive referrals from broker-dealers.
3. The Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by Registrant. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.

In the event that the client directs Registrant to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through Registrant. Higher transaction costs adversely impact account performance.

Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

- B. To the extent that the Registrant provides investment management services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or “bunch” such orders to seek best execution, to negotiate more favorable commission rates or to allocate equitably among the Registrant’s clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by the Registrant's Principals and/or representatives. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.
- B. The Registrant may conduct account reviews on an other than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance. In addition to its advisory services, the Registrant also publishes a periodic report regarding the performance of robo-advisers. The publication is separate and apart from the Registrant’s investment management services to its advisory clients

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12.A.1 above, the Registrant receives economic benefits from *Schwab or Fidelity*.

There is no corresponding commitment made by the Registrant to *Schwab or Fidelity* or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

- B. If a client is introduced to the Registrant by either an unaffiliated or an affiliated promoter, Registrant *may* pay that promoter a referral fee in accordance with the requirements of Rule 206(4)-1 of the Investment Advisers Act of 1940, and any corresponding state securities law requirements. Any such referral fee shall be paid solely from the Registrant's investment management fee, and shall not result in any additional charge to the client. If the client is introduced to the Registrant by an unaffiliated promoter, the promoter, at the time of the solicitation, shall disclose the nature of their relationship, and shall provide each prospective client with a copy of the Registrant's written Brochure with a copy of the written disclosure statement from the promoter to the client disclosing the terms of the arrangement between the Registrant and the promoter, including the compensation to be received by the promoter from the Registrant.

Item 15 Custody

The Registrant shall have the ability to have its advisory fee for each client debited by the custodian on a quarterly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian. The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

Custody Situations: The Registrant engages in other practices and/or services on behalf of its clients that require disclosure at ADV Part 1, Item 9. Some of such practices and/or services are subject to an annual surprise CPA examination in accordance with the requirements of Rule 206(4)-2 under the Investment Advisers Act of 1940.

In addition, certain clients have established asset transfer authorizations, which permit the qualified custodian to rely upon instructions from the Registrant to transfer client funds or securities to third parties. These arrangements are also disclosed at ADV Part 1, Item 9, but in accordance with the guidance provided in the SEC's February 21, 2017 Investment Adviser Association No-Action Letter, the affected accounts are not subject to an annual surprise CPA examination

Item 16 Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary basis. Prior to the Registrant assuming discretionary authority over a client's account, the client shall be required to execute an *Investment Advisory Agreement*, naming the Registrant as the client's attorney and agent in fact, granting the Registrant full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage the Registrant on a discretionary basis may, at any time, impose restrictions, in writing, on the Registrant's discretionary authority (i.e. limit the

types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

Item 17 Voting Client Securities

Unless a client directs otherwise in writing, Registrant, in conjunction with the proxy voting and due diligence services provided by Broadridge Financial Solutions, Inc., or its successors or assigns, shall be responsible for directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted. Registrant and/or the client shall correspondingly instruct each custodian of the assets to forward to Registrant copies of all proxies and shareholder communications relating to the assets. Registrant, in conjunction with the services provided by Broadridge Financial Solutions, Inc., shall monitor corporate actions of individual issuers and investment companies consistent with Registrant's fiduciary duty to vote proxies in the best interests of its clients. With respect to individual issuers, Registrant may be solicited to vote on matters including corporate governance, adoption or amendments to compensation plans (including stock options), and matters involving social issues and corporate responsibility. With respect to investment companies (e.g., mutual funds), Registrant may be solicited to vote on matters including the approval of advisory contracts, distribution plans, and mergers. Registrant shall maintain records pertaining to proxy voting as required pursuant to Rule 204-2(c)(2) under the Advisers Act. Copies of Rules 206(4)-6 and 204-2(c)(2) are available upon written request. In addition, information pertaining to how Registrant voted on any specific proxy issue is also available upon written request.

The Registrant has elected to participate in Broadridge's Global Securities Class Action service whereby Broadridge provides, for and on behalf of client, asset recovery services covering global securities class action lawsuits, bankruptcies and disgorgements. Registrant does not receive any portion of a recovery amount.

To direct Registrant to vote a proxy in a particular manner, clients should contact Broadridge Financial Solutions, Inc. by telephone, electronic mail, or in writing.

Item 18 Financial Information

- A. The Registrant does not solicit fees of more than \$1,200, per client, six months or more in advance.
- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.

The Registrant's Chief Compliance Officer, Michael R. Walliser, remains available to address any questions that a client or prospective client may have regarding the above disclosures and arrangements.
